## BE UNIQUE

Experience the ultimate personalization with the YOYO's customizable side blade, tailored to suit your individual taste. Embrace your creativity by selecting your favourite style and redefine your urban mobility companion in a way that truly reflects your personality. With the YOYO, everyday driving transforms into an enjoyable and distinct experience, making your journeys both fun and unique.

## BE INNOVATIVE

XEV has pioneered advanced 3D printing technology that opens up a world of possibilities for personalization by offering a wide array of choices and stylish options. Revolutionizing urban mobility, offering quick and precise solutions using cutting-edge 3D printing techniques.

## Art Institution Cooperation

UAAD is a global emerging on-line art platform in New York. XEV cooperates with UAAD to enhance artistic diversity, offering the YOYO blades in even more stylish choices and transforming the blades into artistic and collectible pieces.

# Simple, Streamlined, and Futuristic 3D Design.

- Frameless door
- Panoramic sunroof
- Integrated LED head lamp
- Unique side blades

YOYO combines a panoramic sunroof, frameless doors, and distinctive 3D lights. The clever use of glass and steel creates overlapping and intersecting elements throughout, achieving a perfect balance between classic and advanced aesthetics.

# Interior Where Style, Comfort, and Technology Unite.

- Stylish color scheme
- Multifunctional leather steering wheel
- Perforated leather sports style seats
- Flexible and abundant storage space
- Spacious trunk

YOYO is thoughtfully designed with environmentally-friendly materials, ensuring a comfortable and welcoming space for all passengers.

# Intelligence

- 10.25 inch smart touchscreen
- Smart phone mirror display
- Bluetooth music/phone
- APP remote control
- Key remote control

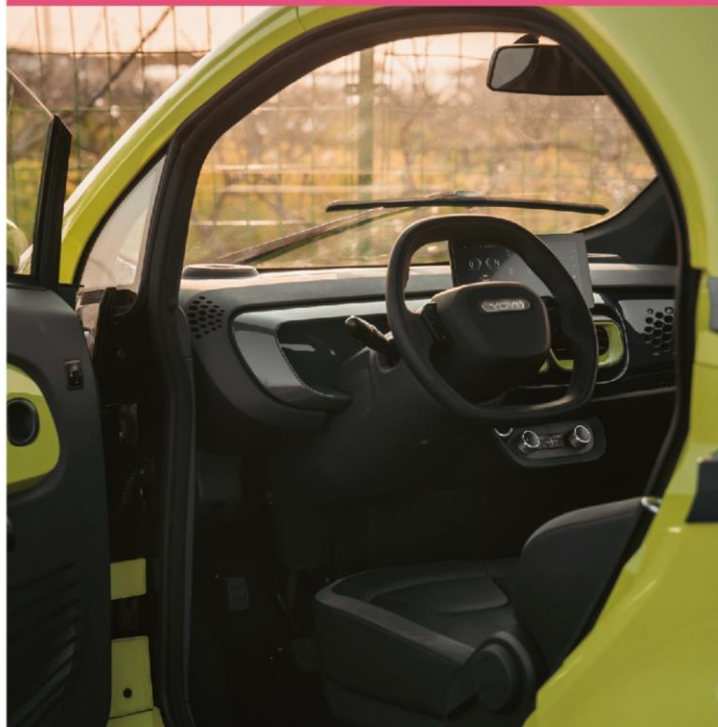

Air-condition Control

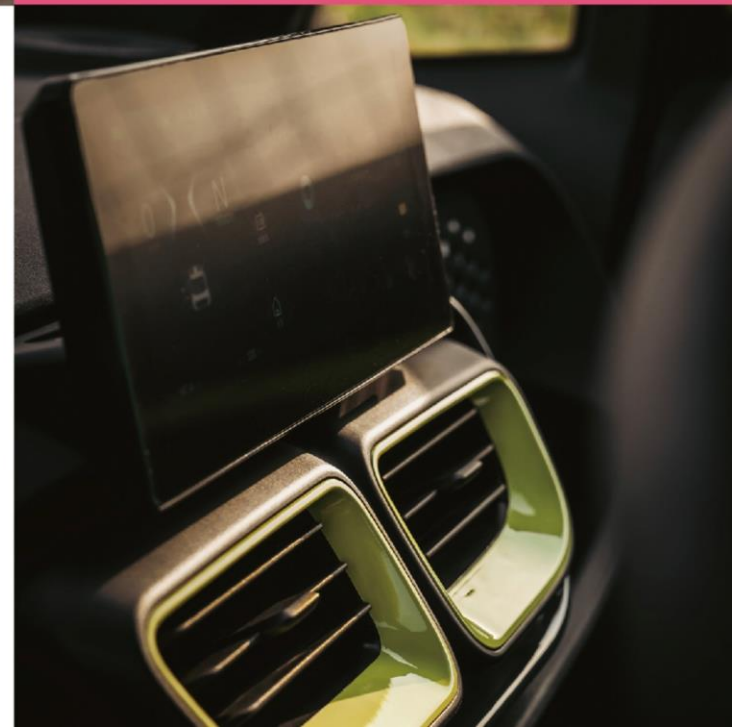

Windows and Doors Control

*New,  
Customer  
focused,  
Freedom,  
Accessibility.*

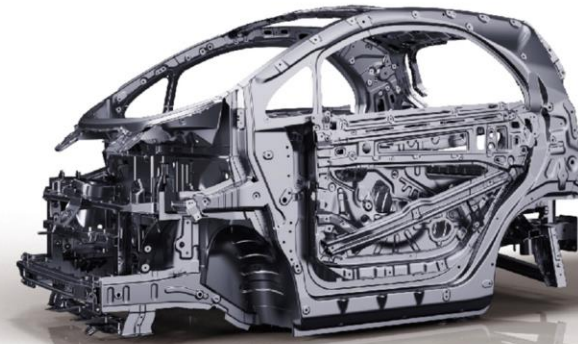

YOYO stands out with its striking color combinations, complemented by the convenience of a 10.25 inch smart touchscreen and app control, creating a high-quality interior that reflects your personal style.

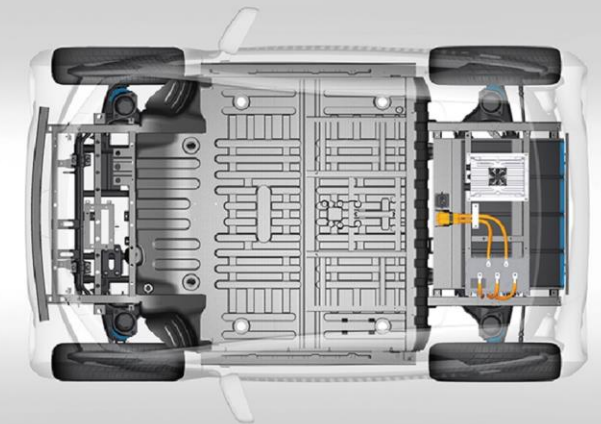

# Safety and Performance

- Integrated high-strength cage body
- McPherson independent suspension
- Rear engine rear drive
- Intelligent battery detection
- Battery protection system

## Battery
